## EXTRAS

**Artwork \$85/hr**

**Shirt Visual via email @\$15 ea**

**Large print over A4 plus \$2.50 per side**   **Large print over A3 plus \$5.00 per side**

1/ A4 is **210 mm x 300 mm**

Maximum print size is **420 mm x 550 mm**

2/ **Digital is only for 100% cotton garments** on dark, up to 100% polyester on white

3/ You can expect a **5-10% fade** on all garments as the printed fibres wash away.

Bright shirt colours eg orange, red and fluoro have a dye compound that prevents adhesion of white ink. We recommend washing first.

4/ Always check your artwork before sending it to us. **The image must be at final print size.**

Low resolution ( 72 dpi - INTERNET) images cannot be printed with any colour accuracy.

Simply increasing the resolution of a low quality image in Photoshop will not improve the image.

Hi resolution pdf files are the best way to email images. 200 dpi is sufficient.

5/ **For printing dark shirts.** Where the image is not on a separate layer, there will be an artwork fee to remove the background. Otherwise the printer doesn't know where to print the white ink.

6/ As this is a CMYK process, Pantone colour matching is not available. **Convert all RGB images to CMYK** to get an accurate preview.

### VINYL TRANSFERS

Where the image is a one colour text or special finish ( glitter , reflective or metallic ) we will use transfer vinyls. These are completely fade resistant and compatible with all fabric types.

Price as per white shirts . Where complex shapes and large areas are involved, a surcharge may apply.

### \* ARTWORK

**Where the image requires any additional work , an extra charge will apply at our hourly rate.**
