REDHOT DESIGN

SCREENPRINTING • T SHIRTS • DESIGN

We make **YOU** look good !

Red Hot have a reputation for producing high quality printing & garment solutions.

We've now added (and tested) **discharge** (bleach) to our product range. If you want a soft hand feel to your prints on dark shirts, this could be the solution.

This technique works only for 100 % cotton shirts that have been dyed with a dischargeable dye. Our Hanes or Australian made tees are perfect.

Ideal for images that require a **large bright area** of light colour on a dark shirt. Without the heavy feel of plastisol ink.

A word of caution though. Colour results can vary from shirt to shirt. Some shirt colours like royal don't discharge. Some cotton shirts may not discharge depending on how they were dyed.

Use our quote form on our website www.redhotdesign.com.au and attach your art.

You'll have a reply within 24 hours quoting the job. And because we're a design based print shop we'll make **YOU** look good.
